

## GREETINGS FROM MARS!

### **Light-Toned Outcrops**

[uahirise.org/ESP\\_o11937\\_1970](http://uahirise.org/ESP_o11937_1970)

This image shows the presence of clays, primarily iron and magnesium phyllosilicates, but also kaolinites, approximately 700 km from Mawrth Vallis.
