

# GREETINGS FROM MARS!

## **Ridges Inside Kasei Valles**

[uahirise.org/ESP\\_014391\\_2045](http://uahirise.org/ESP_014391_2045)

Acquisition date: 21 August 2009

Approximately 285 kilometers above the surface

These small wrinkle ridges in Kasei Vallis may have deformed the larger, more streamlined ridges. The numerous impact craters have also done their work!
