

**GREETINGS FROM MARS!**

## **Opportunity's Journey at Endeavour Crater**

[uahirise.org/ESP\\_o32573\\_1775](http://uahirise.org/ESP_o32573_1775)

Acquisition date: 8 July 2013

Approximately 269 kilometers above the surface

In this image, Opportunity was on the western rim of 20-kilometer-diameter Endeavour Crater in Meridiani Planum, investigating the 3-4 billion-year-old sedimentary layers of Cape York.
