

GREETINGS FROM MARS!

Opportunity's Journey at Endeavour Crater

uahirise.org/ESP_032573_1775

Acquisition date: 8 July 2013

Approximately 269 kilometers above the surface

In this image, Opportunity was on the western rim of 20-kilometer-diameter Endeavour Crater in Meridiani Planum, investigating the 3-4 billion-year-old sedimentary layers of Cape York.
