

**GREETINGS FROM MARS!**

**Dunes and Ripples in the Nilosyrtis Region**

[uahirise.org/ESP\\_049436\\_2175](http://uahirise.org/ESP_049436_2175)

Acquisition date: 11 February 2017

Approximately 297 kilometers above the surface

Less than 1 kilometer across

Repeat targets of dunes help to monitor any change detection  
between dunes and ripple relationship.
