## Remnant of Unconformable Deposit in Electris

[uahirise.org/ESP\\_023929\\_1425](http://uahirise.org/ESP_023929_1425)

One goal of this observation is to try to determine the origin of what's called the "mantling deposit." How was this deposit placed here? What types of geologic processes have acted to form the deposit?
