## **A Wild Assortment of Jumbled Rocks**

[uahirise.org/ESP\\_026412\\_2035](http://uahirise.org/ESP_026412_2035)

This enhanced-color subimage shows part of the ejecta from an impact crater. The impact broke up already diverse rocks types and mixed them together to create this wild jumble of colors, each representing a different type of rock.
